

# Recommendations for receiving the **MODERNA** Alternative COVID-19 Vaccine

The COVID-19 pandemic has still not ended, so the Ministry of Public Health recommends that after the third dose people continue to receive booster doses every 4 months to increase immunity.

First dose	Second dose	Required interval after 2 <sup>nd</sup> dose	Third dose	Required interval after 3 <sup>rd</sup> dose	Fourth dose
	 (4 weeks after first dose)	<b>After 3 months</b>		<b>After 4 months</b>	
	 (4 weeks after first dose)	<b>After 3 months</b>		<b>After 4 months</b>	
	 (4 weeks after first dose)	<b>After 3 months</b>		<b>After 4 months</b>	
	 (4 weeks after first dose)	<b>After 3 months</b>		<b>After 4 months</b>	
		<b>2 months</b>	 (Booster dose)	<b>After 4 months</b>	
		<b>After 4 weeks</b>		<b>After 4 months</b>	
		<b>After 3 months</b>		<b>After 4 months</b>	
		<b>After 3 months</b>		<b>After 4 months</b>	
		<b>After 3 months</b>		<b>After 4 months</b>	
		<b>After 3 months</b>		<b>After 4 months</b>	
		<b>After 3 months</b>		<b>After 4 months</b>	
		<b>After 4 weeks</b>		<b>After 4 months</b>	
		<b>After 4 weeks</b>		<b>After 4 months</b>	
		<b>After 3 months</b>		<b>After 4 months</b>	
		<b>After 3 months</b>		<b>After 4 months</b>	

**Note:** If you have recovered from COVID-19, you can receive the COVID-19 vaccine 3 months after testing positive through the same recommendation as those who have never been infected with the COVID-19.

**Children and teenagers aged 6-17 are urged to strictly follow the pediatrician's recommendations.**
